PROFESSIONAL SUMMARY

Computer Science student with strong interests in Artificial Intelligence, data analysis, and research-based problem solving. Experienced in machine learning, statistical analysis, and academic research projects involving real-world applications such as healthcare behavior analysis, agricultural disease detection, and digital transformation in businesses. Passionate about using technology and data-driven methods to solve meaningful problems.

EDUCATION

Bachelor of Science in Computer Science

Kandahar University

2023 – 2027 (Expected)

Current: 6th Semester (3rd Year) | CGPA: **3.3 / 4.0**

TECHNICAL SKILLS

Programming Languages

Python • Java • JavaScript

Web Development

HTML • CSS • JavaScript

Data Analysis & Visualization

NumPy • Pandas • Matplotlib • TensorFlow • Keras

Database & Software Engineering

DBMS • Oracle Database • DSA • Software Engineering • FastAPI

Research & Analytical Skills

Statistics & Probability • Research Methodology • Scientific Writing • Data Interpretation

PROJECTS

Mental Health & Social Media Balance Analysis

Individual Project

- ▶ Conducted a statistical analysis to study the relationship between social media usage and mental health balance.
- ▶ Applied probability and statistical methods to interpret behavioral patterns.
- ▶ Used Python libraries (NumPy, Pandas, Matplotlib) for data analysis and visualization.
- ▶ Completed a full research-based analytical report.

AI-Based Potato Disease Classification System

Individual Project

- ▶ Developed a deep learning model to detect potato leaf diseases including Early Blight and Late Blight.
- ▶ Aimed to support agricultural productivity and reduce global crop losses.

- ▶ Used TensorFlow and Keras for model development and training.
- ▶ Implemented FastAPI and Uvicorn to deploy the model as a prediction API.
- ▶ Utilized NumPy, Pandas, and Matplotlib for preprocessing and data analysis.

Impact of Digital Systems on Businesses

Ongoing Research
Paper – Team Project

- ▶ Participating in academic research on the impact of digital transformation in business environments.
- ▶ Conducted literature review of existing research papers.
- ▶ Contributed to survey questionnaire design for data collection.
- ▶ Collaborating with team members for data analysis and research documentation.

LANGUAGES

English <i>Fluent</i>	Pashto <i>Native</i>	Dari <i>Fluent</i>	Hindi <i>Conversational</i>
